CONCRETE ARTS

ART WORK YOU CAN WALK

Concrete Arts Announces Merger with Graf Concrete

I am pleased to inform you that Graf Concrete has merged with Concrete Arts and are now officially operating as one. Together the company is uniquely positioned to offer a wide variety of concrete services from traditional flatwork and poured work that Graf Concrete specialized in to Concrete Art's Decorative Stamping, Staining, PreCast Systems and more.

What does this mean for you? Convenience. Everything is now simplified under one name, Concrete Arts. We now offer commitment to innovation to each of our services with a strong technical support staff. Our goal is to continue as one company providing you high quality, customizable products.

We'd like to thank you for your loyalty and support. Our company has ventured into many different avenues and explored many new options with concrete for internal to external use. Take a look at our service. I know you'll like what you see.

Sincerely,
Tom Graf
President
